copy 6 ed 7

## 27 April 1956

MEMORANDUM FOR:

Project Director of Operations

THROUGH

Deputy Project Director

SUBJECT:

Policy and Procedure for Pilote Forced Down in Hostile Territory

- 1. I am returning herewith your draft of Operations Policy Letter No. 6. I passed this paper to General Cabell with my eral endersement. He has returned it with the comments you will see on the cover sheet and along the side of the text.
- 2. With reference to his comments, I have already discussed the need for a written "Missing Aircraft Procedure" paper. This should set forth steps to be taken, (a) to announce that an aircraft is missing. (b) to institute appropriate search and rescue activities, and (c) to release information to the press as appropriate. With respect to the last of these three items, the Project Cover Officer has already drafted a paper on a cover story for this contingency and I have asked him as seen as possible to go to work on the draft of a possible press release to accompany an announcement that an aircraft is missing. Would you take this as my efficial request to you to prepare the missing aircraft procedure document as a companion piece to Operations Policy Letter No. 6. This should be done jointly with the Cover Officer who will contribute to the decument as indicated above.
- 3. With respect to General Cabell's marginal comment on page three of the draft Policy Letter, the procedure document requesting the preceeding paragraph is, of course, the proper place to provide for any necessary emergency instructions to air attaches. Frankly, I am not entirely sure what General Cabell has in mind under this heading out will ascertain and advise you further. In any case, this does not affect Policy Letter No. 6 itself.

080180100 Grant

-2-

- 4. You will note that Gen. Cabell has made a change in paragraph four e. of the draft (on page 5). He definitely desires this change to be made.
- 5. If you have not already done so, I would appreciate it if you would pass this draft, with Gen. Cabell's own amendment on page five, to Col. Berg for USAF comment.
